

MATCH BETTER PROGRAM

Where to start and how? Those are the first and most common questions people ask themselves when embarking on this journey.

We are all different; we have different needs and expectations, so naturally, there is no single approach that fits everyone.

At Klein Fertility Law, we believe the first step is you. That's how our new concierge program, *Match Better*, was born.

With *Match Better*, we listen to you, and we focus on the things that are important to you to help you tailor-make a journey that will suit your needs.

Our advisors have extensive backgrounds and experience working for fertility clinics, surrogate agencies, and international agencies. They have assisted international Intended Parents navigate these journeys for a decade and understand the ins and outs of this process from every possible angle.

We are committed to providing objective and transparent advice while always ensuring it's **YOUR** interests that come first.

We don't promise things will be perfect, but we promise you will have a team of ethical and empathic professionals that will help guide you and do whatever is needed to fix any problems that may arise along the way.

Here are some things we will do for you:

-
- > **Help you understand the process** This is a very important first step. There are many myths and plenty of contradictory information online, as well as unreliable or obsolete information provided by friends or acquaintances. Not everything is true, and things change. Having a holistic and current understanding of these journeys and the many different possibilities at hand is important to start making decisions.

 - > **Help you understand costs** There is a wide range of fees and costs involved in this process. We help you understand what's standard and expected and what's not.

 - > **Help you choose a clinic** There is a wide range of well-known providers, but there are many that are not so well known that are equally good and may be a better fit for you.

 - > **Help you find a surrogate agency** There are hundreds of agencies out there and too many things to take into consideration when choosing an agency. Let us save you a lot of time and hassle by telling us what's important for you, and we'll explain the relevant options.

 - > **Help you find an ideal egg donor and surrogate** Nothing is more personal than this and not all candidates are equally good. We help you make the right decisions for you so that you can avoid unnecessary frustration and bad outcomes.

 - > **Help you understand timeframes** We all want things to be ready yesterday, but these journeys are complex and there are many moving parts. Understanding the Why and setting expectations can help you estimate the When and navigate through your journey stress-free.

 - > **Help you understand everything else** Medical insurance, newborn insurance, escrow, emotional support, international legal advice... Whatever it is you need to understand at whatever stage of the process – we're here to explain it to you. We will also connect you with the relevant providers whenever you need them.
-

Needless to say, we also take care of all things legal in the US: we will draft your egg donor contract with your donor (if needed) and your gestational carrier agreement with your surrogate, as well as handle parentage matters at the end with the option to upgrade to unlimited services for extra peace of mind.

Our goal is for you to feel taken care of and to feel fully supported from the day you start your journey until you go home with your baby.

If there is anything else you can think of that we haven't, just ask.

We love expanding our limits.
